Technical Skills

- **Backend Technologies:** Spring Boot, Spring Security, Spring Cloud, Hibernate, JPA, JWT, OAuth2, Multithreading
- **Languages:** Java, JavaScript
- **Cloud and DevOps:** AWS (SES, IAM), Docker, Kubernetes, Jenkins, CI/CD, Git (GitHub, Bitbucket)
- **Databases and Messaging:** MySQL, PostgreSQL, Kafka
- **Frontend Frameworks:** React.js, Ionic
- **Developer Tools:** Maven, Gradle, npm, SonarQube, Splunk, Swagger, Postman, Artifactory, JIRA, GitHub Copilot

Experience

- **SunLife Global Solutions** Gurugram, India
SDE-1 (Java Full-Stack Developer) Jul 2022 – Present
 - Developed secure **RESTful APIs** using Spring Boot with **JWT/OAuth2** and **MFA** (WhatsApp/Email OTP), **reducing security incidents by 30%** and **password resets by 25%**.
 - Selected for **international onsite assignment (Philippines)** to drive **SIT** and **UAT readiness**, ensuring smooth, on-time delivery of production releases with high system stability.
 - Architected a **modular monolithic** backend with **Okta-based M2M security** and a **BFF layer**, **improving response time by 30%** and enhancing user experience.
 - Boosted performance by **40% via SQL optimization** and improved reliability with **centralized Log4j/SLF4J** logging, cutting debugging time by 50%.
 - Automated advisor training workflows using a configurable rules engine, **reducing manual effort by 60%** and accelerating onboarding for **2K+ advisors**.
 - Strengthened code quality with **JUnit** and **Mockito**, leveraging **JaCoCo** for coverage, reducing defects.
 - Built event-driven microservices with **Kafka**, powering **1K+ asynchronous notifications daily** and implementing **CI/CD** using **Jenkins**, **Docker** and **Kubernetes** for seamless, automated deployments.
 - Enhanced **SPA (React, Ionic)** for scalable campaign scheduling, **increasing performance by 45%** and doubling campaign launches.
 - Facilitated **Agile ceremonies (Scrum, Sprint Planning, Retrospectives)**, achieving **95% on-time feature delivery** across multiple product releases.

Projects

- **Distributed Microservices Architecture (Spring Boot, Kafka, Observability Stack)** [GitHub]
 - Built a robust **JWT-based authentication system** with refresh token management, ensuring **100% API security** and centralized access control via an **API Gateway**.
 - Containerized workloads with **Docker** and integrated (**Kafka** and **AWS SES**) for **real-time email notifications**, cutting deployment time by **70%** and ensuring **1K+ daily events with 99.9% success**.
 - Integrated **Resilience4j circuit breakers** and **retry mechanisms** to improve fault isolation, **enhancing reliability by 35%** and **cutting failure impact by 30%**.
 - Deployed **observability tools (Prometheus, Grafana, Loki, Tempo)**, cutting **mean-time-to-detection (MTTD)** by **45%** and enabling real-time insights across **5+ microservices**.
- **News Aggregator System (React, Spring Boot, Redis, WebSocket)** [GitHub]
 - Engineered a scalable backend system integrating multiple news APIs using **Aggregator** and **Strategy design patterns** for unified data delivery.
 - Orchestrated **Redis caching** with **TTL** and **offline support**, reducing API latency and improving fault tolerance during downtime.
 - Optimized performance via parallel API calls using **ExecutorService**, improving response time and system throughput.
 - Enabled real-time updates using **WebSocket (STOMP, SockJS)**, ensuring real-time content delivery.

Certifications

- Java Masterclass (Udemy) : Core Java, OOP (Object-Oriented Programming), JDBC, Collections, Exception Handling, Multithreading
- JavaScript Basics (Udemy) : Variables, Functions, DOM, Events
- The Ultimate React JS Course (Udemy) : React Hooks, Routing, Optimization

Awards

- **Brighter Beginning Award:** Awarded Brighter Beginning Award twice for exceptional ownership and delivery of critical features.

Education

- **Ajay Kumar Garg Engineering College** Ghaziabad, Uttar Pradesh
Bachelor of Information Technology (CGPA: 7.80) Jun 2017 - Jul 2021
Courses: Operating Systems, Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Computer Networks, Object-Oriented Programming (OOP), Software Engineering
